# WELCH ALLYN'S FIBER OPTIC EXAM LIGHT III

This sleek, rugged exam light focuses clear, white illumination precisely where it's needed, with features that ensure her comfort and enhance your diagnostic skill:

**No wandering or drooping** — Flexible yet strong fiberoptic light pipe is twice as long as conventional units but keeps beam aim true, staying precisely where you focus it for as long as you need it to.

**Maintains patient comfort level** — Streamlined, compact design is unobtrusive for patient and easy to maneuver for you.

**Renders true tissue color** — Bright, white, shadow-free light allows you to see tissue characteristics without distortion.

**Mounting option flexibility** — Choose from wall, mobile stand, and table versions to accommodate your particular setup.

## Solarc™ Surgical Headlight

Welch Allyn's surgical headlight is durable, comfortable, and lightweight, and it delivers the bright, white light at a fraction of the cost.
